

## CY 2022 (FY 2024) Available eCQMs

For calendar year (CY) 2022 reporting (fiscal year [FY] 2024 payment determination), hospitals participating in the Hospital Inpatient Quality Reporting (IQR) Program and the Medicare Promoting Interoperability Program are required to successfully submit data for the mandatory **Safe Use of Opioids – Concurrent Prescribing** electronic clinical quality measure (eCQM) and three (3) other available eCQMs from the table below, for each of the three self-selected quarters. **Each self-selected quarter must contain at least three (3) self-selected eCQMs, plus the mandatory Safe Use of Opioids-Concurrent Prescribing eCQM.** The eCQMs must be the same eCQMs across quarters in a given reporting year.

Hospitals can use any combination of Quality Reporting Document Architecture (QRDA) Category I files, zero denominator declarations, and/or case threshold exemptions to reflect its total inpatient population. The data must be reported using Health Information Technology (Health IT) certified by the Office of the National Coordinator for Health IT (ONC) to the existing 2015 Edition certification criteria, the 2015 Edition Cures Update criteria, or a combination of both.\*

The eCQM reporting deadline is **Tuesday, February 28, 2023, 11:59 p.m. Pacific Time**. For additional information, please visit the QualityNet [eCQMs Overview](#) page and the [eCQI Resource Center eCQM](#) page.

<p><b><u>Mandatory</u></b>  <b>(CMS506v4) Safe Use of Opioids – Concurrent Prescribing</b>                  Safe Use of Opioids-Concurrent Prescribing is mandatory beginning with the FY 2024 payment determination.</p>	
<p><b>ED-2 (CMS111v10)</b>                  Admit Decision Time to ED Departure Time for Admitted Patients</p>	<p><b>PC-05 (CMS9v10)</b>                  Exclusive Breast Milk Feeding</p>
<p><b>STK-02 (CMS104v10)</b>                  Discharged on Antithrombotic Therapy</p>	<p><b>STK-03 (CMS71v11)</b>                  Anticoagulation Therapy for Atrial Fibrillation/Flutter</p>
<p><b>STK-05 (CMS72v10)</b>                  Antithrombotic Therapy By the End of Hospital Day 2</p>	<p><b>STK-06 (CMS105v10)</b>                  Discharged on Statin Medication</p>
<p><b>VTE-1 (CMS108v10)</b>                  Venous Thromboembolism Prophylaxis</p>	<p><b>VTE-2 (CMS190v10)</b>                  Intensive Care Unit Venous Thromboembolism Prophylaxis</p>

ED = Emergency Department    PC = Perinatal Care    STK = Stroke    VTE = Venous Thromboembolism

\*CY 2022 is the final year to use the 2015 Edition certification criteria in the Hospital IQR and Medicare Promoting Interoperability Programs.
