Subject: CART-IPFQR Version 2.2.0 Release

We are pleased to announce the CMS Abstraction and Reporting Tool (CART)-IPFQR Version 2.2.0 has been released and is available on the QualityNet website, http://www.qualitynet.org.

This release supports all remaining measures of the IPFQR Program that can be abstracted. Please note that there is no upgrade process available for those that previously installed CART-IPFQR Version 1.0.1, which is why there is no option available on the *QualityNet* website to upgrade.

The CART Version 2.2.0 download, as well as installation instructions, edits, and online help are located on the QualityNet website. Select the **Inpatient Psychiatric Facilities** card on the home page of QualityNet. On the Inpatient Psychiatric Facilities page, select **Data Management** and then, select **CMS Abstraction & Reporting Tool (CART)** under **Data Collection**.

The CART-IPFQR Version 2.2.0 can be accessed under the CART Overview page. Edits and Online Help Guide are at the bottom of the Download Cart page under Resources. For users who have previously installed CART-IPFQR Version 1.0.1 in to an existing QMS and CART IQR/OQR setup and need to continue to use IQR and/or OQR CART, please contact the Service Center number below for additional guidance.

If you have any questions, please notify your internal point of contact. Do not respond directly to this email. For further assistance regarding the information contained in this message, please contact the CCSQ Service Center at QNetSupport@cms.hhs.gov, or by calling toll-free 866.288.8912 (TTY: 877.715.6222) weekdays from 8 a.m. to 8 p.m. ET.
