Subject: Now Available: Updated eCQM Specifications and Implementation Resources for 2024 Reporting/Performance Period

The Centers for Medicare & Medicaid Services (CMS) has posted the electronic clinical quality measure (eCQM) specifications for the 2024 reporting/performance period for: Eligible Hospitals (EH) and Critical Access Hospitals (CAHs), Outpatient Quality Reporting (OQR), and Eligible Clinician (EC) quality reporting programs. CMS updates the specifications annually to align with current clinical guidelines and code systems so they remain relevant and actionable within the clinical care setting. Measures will not be eligible for 2024 reporting unless and until they are proposed and finalized through notice-and-comment rulemaking for each applicable program.

Where to Find the Updated eCQM Specifications and Implementation Resources

The updated eCQM specifications are available on the Electronic Clinical Quality Improvement [eCQI Resource Center \(eCQI RC\)](#) for [EH/CAH](#), [OQR](#), and [EC](#) pages under the 2024 Reporting/Performance Period. Other resources, including the Guide for Reading eCQMs, eCQM Logic and Implementation Guidance, tables of eCQMs, and technical release notes, are also available on the eCQM Resources tabs on the Eligible Clinician, Eligible Hospital, and OQR pages. In addition, the [Telehealth Guidance for eCQMs for Eligible Clinician 2024 Quality Reporting](#) and the [Eligible Clinician Table of eCQMs](#) regarding the allowance of telehealth encounters for EC eCQMs are posted. The [eCQM Data Element Repository](#), a resource that provides all the data elements associated with eCQMs in CMS quality reporting programs, will be updated after the measure publication to reflect data element updates to improve clarity for eCQM implementation.

Where to Find the 2024 eCQM Value Sets, Direct Reference Codes, and Terminology

The 2024 reporting/performance period eCQM value sets are available through the National Library of Medicine's [Value Set Authority Center](#) (VSAC). The value sets are available as a complete set, as well as value sets per eCQM, on the [VSAC Downloadable Resources](#) page. The direct reference codes specified within the eCQM HQMF files are also available in a separate file for download. Use the [VSAC Value Set Comparison Tool](#) to compare different elements of the 2024 value sets and quality measures with past eCQM Annual Update releases.

Pre-Rulemaking Measure Information

The eCQI RC includes information about CMS [EH/CAH Pre-Rulemaking eCQMs](#), [EH/CAH Hybrid Pre-Rulemaking eCQMs](#), EC Pre-rulemaking eCQMs, and [OQR Pre-Rulemaking eCQMs](#); quality measures that are developed, but not yet finalized for reporting in a CMS program. These measures will not be eligible for CMS quality reporting until they are proposed and finalized through notice-and-comment rulemaking for each applicable program.

For Questions Regarding eCQMs visit the [eCQM Issue Tracker](#). Note that an [ONC Project Tracking System \(Jira\) account](#) is required to ask a question or comment.
